YOU WANT TO BUILD A WORLD...

...that's fairer for everyone; but finding a place to start can be daunting. Even if you want to give 1% as a token of luck you may not have the cash on hand today.

WHY

The Epic Sharing Pledge is a simple, straightforward way to articulate your commitment to the fight against injustices, that still allows you to stay focused on your business.

HOW

You make a promise to yourself —with Epic as your witness— to share some of your success. You sign a non-binding pledge to donate a percentage of your gains, present or future.

BENEFITS

Once you have made your commitment, you join a community of like-minded business people. We provide you with a highly-vetted portfolio of social organizations to deploy your giving, and we nurture the spirit of your pledge over time thanks to our engagement program.

YOU CAN START YOUR JOURNEY TODAY.

When you sign the Epic Sharing Pledge, you will be connected to a network of business leaders from Silicon Valley to Paris, who share your commitment to fighting injustices all over the world.

More and more LPs put the ESG question as a gatekeeper prior to any further discussion on investment.

The most brilliant young people today want to work in a place where they feel they are making an impact. And working with Epic is a good way to attract and retain these talents.
